

Acura Recall Voice Alert to Customer

NHTSA ID: 13V-412

Date: November 5, 2013

Acura recently mailed to you an important safety recall notice regarding your 2003 MDX. This notice explains that a problem potentially exists with your vehicle's SRS control unit that may cause an airbag to deploy without a crash. An airbag that deploys inadvertently while the vehicle is in motion may distract the driver, increasing the risk of a crash. The notice also outlines what you need to do, including how to obtain the recall repair, free of charge, at any authorized Acura dealer. If you need help finding an Acura dealer, or do not receive the notice within five days, please call 1-800-382-2238, and select option 4. Thank you.
