

**SAFETY RECALL N28 / NHTSA 13V-234
TRANSMISSION OIL COOLER TUBE**

Dear: (Name)

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some **2012 and 2013 model year Jeep® Wrangler vehicles equipped with an automatic transmission.**

The problem is... **The transmission oil cooler tube on your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx) may come in contact with the power steering fluid return tube. Prolonged contact of the tubes could cause a leak in the transmission oil cooler tube. Operating the vehicle with insufficient transmission fluid may cause damage to the transmission and a loss of transmission function which may increase the risk of a crash.**

What your dealer will do... **Chrysler will repair your vehicle free of charge (parts and labor).** To do this, your dealer will replace the power steering return tube and inspect, and replace if necessary, the transmission oil cooler tube. The work will take about two hours to complete. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... Simply **contact your Chrysler, Jeep, or Dodge dealer** right away to schedule a service appointment. Ask the dealer to hold the part/parts for your vehicle or to order them before your appointment. **Please bring this letter with you to your dealer.**

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.
