

MADE SMART.
URBAN JUNGLE SAFE.

Dear Mr. Foreman

January 29th, 2014

As per the included notification letter from NHTSA, this recall is done to correct the lettering installed on your vehicle (inside and outside) that do not reflect the size of letters recommended by FMVSS 217 " Bus Emergency Exits and Window Retention and Release".

Also there is a decal that was not installed at the right location due to the side window release handle Lion Bus is using on the push-out emergency window ; the decal should be within 15 cm (6 inches) from the handle (as per attached picture).

On this package you have :

48 decals "EMERGENCY EXIT" to replace the inside and outside sticker above the emergency windows ;

6 decal "EMERGENCY DOOR" to replace the inside sticker at top of emergency door ;

6 decal "EMERGENCY DOOR" vinyl to replace the outside sticker at top of the glass;

6 decal "EMERGENCY DOOR OPERATION INSTRUCTION" to replace the sticker inside rear door close to the handle ;

24 decals "EMERGENCY WINDOW RELEASE" to replace the sticker installed below the emergency push-out windows; this particular sticker is installed outside the vehicle to avoid passengers to peel it and also you will see that the instructions to release are visible from inside.

24 decals "EMERGENCY WINDOW INSTRUCTION" going inside ahead of the windows.

24 decals "EMERGENCY WINDOW INSTRUCTION" going inside back of the windows.

MADE SMART.
URBAN JUNGLE SAFE.

Please process to the change of these decals as soon as possible and when the job is done confirm to me at the same time you are invoicing Lion Bus for the job ; we allow between 30 and 40 minutes per bus to do the replacement.

Your confirmation when the job is done will serve Lion Bus to make the quarterly report to the Federal Agency.

Sorry for the inconveniences and do not hesitate to contact me if there is any problem or questions with this recall 13V-374
