RE: Safety Defect and Noncompliance Report for Vehicles, IAW 49 CFR Part 573,  
Quarterly report, Safety Recall Campaign Number 13E-064.

On November 19, 2013 Seats Incorporated reported a potential safety defect which relates to motor vehicles governed under authority of NHTSA may exist in the seats in the previously filed report identified as Safety Recall Campaign Number 13E-064.

On November 12, 2013, Seats Incorporated was notified by seat belt manufacturer, Indiana Mills and Manufacturing, Inc., (IMMI), of a potential safety defect in several seat belt assemblies sold to Seats Incorporated, which may affect these seats. Reference Safety Recall Campaign Number 13E-061.

Seats Incorporated worked with IMMI to identify potentially affected seats, and IMMI coordinated the repair or replacement of the belts with the customers.

It is our understanding the 577 letter is the responsibility of the OEM Vehicle Mfg. We do not have a copy of those letters.

The attached report is an update from the preliminary report previously filed. Further quarterly updates will be provided as required.

Sincerely,

Lee Adams  
QA Mgr
