RE: Sure Power Campaign 13E050

Dear Jennifer:

I am writing to address a discrepancy with one of Sure Power's OE customers identified as having purchased product now under our recall campaign 13E050.

In our initial report of customer notification submitted in September of 2013 we identified having sold 39 affected products to Fontaine Modification Co. with an address in Council Bluffs, Iowa. In recent correspondence with Fontaine Modification Co., they stated they have neither purchase history with Sure Power nor a location in Council Bluffs. We investigated this further and found that we had an incorrect customer name in our system and have determined that the purchase history in fact belongs to **Fontaine Truck Equipment** and the product was provided to their Council Bluffs location.

We would like to take this opportunity to provide the corrected information for Fontaine Truck Equipment, previously identified as Fontaine Modification Corp:

OEM Customer	Market	Sum of Qty	Customer Contact Name	Customer Contact Title	Customer Phone	Customer Email	Address
Fontaine Truck Equip.	Specialty Vehicle	39	Stan Garfield	VP of Purchasing	712-256-9300	abarfield@palfleet.com	3501 South 11th St. Council Bluffs, IA 51501

We apologize for the confusion with this customer information. If you have any questions regarding this discrepancy, or if Sure Power needs to take further action, please feel free to contact me at jess.bergers@eaton.com or 503-612-7535.

Best Regards,

Jess Bergers
