IMPORTANT SAFETY RECALL

This notice applies to your vehicle, VIN # - xxxxxxxxxxxxxxxxxxxx.

Airstream Interstate Motorhome

NHTSA Recall Number 13V-632

Dear Customer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act and is important for your safety.

Reason for This Recall

Airstream has decided that a defect which relates to motor vehicle safety exists in Airstream Interstate Motorhomes. The installation of the propane tank and regulator allow liquid propane to enter the regulator, which results in the failure of the first stage of the regulator. If the first stage of the regulator is damaged it will allow propane to escape out of the safety release vent if it experiences an over pressurized condition. If the vehicle is parked in an enclosed storage area, the escaping propane can collect and potentially cause a fire and or explosion to occur.

What We Will Do

Airstream will inspect your motorhome and if found to have a damaged regulator, the regulator will be replaced. This will be done at no charge to you, the vehicle owner.

What You Should Do

Please contact your nearest Airstream dealer and arrange an appointment to have your motorhome inspected. It is estimated that inspection and repairs, if required, could take up to one hour. If you any questions regarding this recall, or need assistance in locating an Airstream certified dealer please contact the **Airstream Warranty/Service Department** by phone at 937-596-6111.
