SUBJECT: SAFETY RECALL OF SETRA S417TC & S407 MODEL COACHES

Ref.: **NHTSA recall # 14V-369 (superseded from 13V-465)**

Transport Canada recall # 2014-249 (superseded from 2013-326)

Setra Bulletin # TI 82.10M08198C (note – this is a updated repair bulletin)

RE-NOTIFICATION (due to additional affected vehicles)

Dear Setra Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act and the Canadian Motor Vehicle Safety Act.

You may have received the initial notification of this Setra recall in November 2013 but due to new information, additional affected vehicles are now affected and these vehicles could be in your fleet, therefore Setra is re-notifying all affected customers.

Setra has decided that a defect which relates to motor vehicle safety exists in certain S417TC and S407 model year 2011~2014 motor coaches manufactured between August 2010 and April 2014. Setra therefore has initiated a recall of these vehicles. Our records indicate that your vehicle is included in this group.

Setra has determined that in some cases electrical overload could occur in the control unit of the fog and cornering lights. This high thermal load of the device can result in a short circuit or a fire.

Setra is conducting a recall of the affected vehicles to replace the control unit in question. The recall work will be provided at no cost to you, and is estimated to take one an hour to complete. You may have the repair work performed at an MCI Service Center or other authorized Setra repair facility. Please contact Setra Customer Service Line at 1-800-241-2947 if you need further information in that regard.

Setra strongly urges you to have the recall work performed on your vehicle(s) as quickly as possible.

Submission of Setra Warranty Claim Forms may be completed on MCI's website at <http://fleetsupportiw.mcicoach/iwarranty/signon> (click on customer Care System), or a photo copy of the Warranty Claim Form can be mailed / faxed to the Setra Warranty Department.
