This important safety recall notice applies to your vehicle(s) with the following Vehicle Identification Number(s) ("VIN"):

[REDACTED]

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

ROUSH CleanTech, LLC ("Roush"), has decided that a defect that relates to motor vehicle safety exists in certain ROUSH CleanTech liquid propane autogas fuel system converter kits that were installed in the vehicles identified above. According to our records, you are the owner of these vehicles.

Under certain circumstances, the aluminum fuel line fitting in the conversion kits can experience galvanic corrosion where it contacts the brass supply valve housing on the fuel tank. This could result in a leak of the propane fuel, which could lead to a fire.

**WHAT WE WILL DO:**

To remedy this problem, Roush will replace the aluminum fuel line fitting with a new stainless steel fitting at no cost to you.

**WHAT YOU SHOULD DO:**

At your earliest convenience, please call Roush at 1-800-59-ROUSH (1-800-597-6874) to obtain instructions on how to have your vehicle repaired. When you call, please be prepared to provide us with your name and the VIN of each of your vehicles that are covered by this Notification. We estimate that each repair will take approximately 30 minutes to complete.

If you believe that Roush has failed or is unable to remedy the defect without charge within a reasonable time, please contact us at 1-800-59-ROUSH (1-800-597-6874).
