Re: Recall # 14V-655
Certain Toyota and Lexus Vehicle Front Passenger Airbags
Part 573, Defect Information Report

Dear Ms. Lewis:

In connection with the above referenced matter, this supplements Toyota's Defect Information Report dated October 19, 2014.

The geographic region involved in recall # 14V-655 originally identified as the Gulf Coast has been further clarified. It includes parts of adjacent counties to Florida in Southern Georgia, as well as the coastal areas of Alabama, Louisiana, Mississippi and Texas.

Additionally, the number of affected vehicles, originally reported as 247,000, has been increased to reflect more accurately the vehicles that are to be remedied as part of recall # 14V-655. This is the result of additional analysis and newly received vehicle registration information from R.L. Polk that has caused us to move vehicles from recall #14V-312 to #14V-655. It also now includes the Pontiac Vibe; Toyota did not have Vibe information when it originally reported. The updated number of vehicles involved in recall # 14V-655 is approximately 324,645. Specific model populations are listed below.

The increased number is a result of specific vehicle populations that are now being remedied under recall # 14V-655 but originally involved in recall # 14V-312. Specifically, vehicles that are currently registered or originally sold in: Florida and adjacent counties in Southern Georgia, Puerto Rico, Hawaii, the U. S. Virgin Islands, Guam, Saipan, American Samoa, as well as the coastal areas of Alabama, Louisiana, Mississippi and Texas, will now be reported as part of #14V-655. NHTSA's Recall Management Division requested that the vehicle populations in # 14V-312 and #14V-655 be reported separately.

Total Number of Vehicles Potentially Affected:

Lexus SC	: 14,364
Toyota Corolla	: 181,676
Toyota Corolla Matrix	: 35,197
Toyota Sequoia	: 30,644
Toyota Tundra	: 49,035
Pontiac Vibe	: 13,729
Approximate Total	: 324,645

Should you have any questions about this report, please contact me directly.

Sincerely,

Abbas Saadat
Vice President
Toyota Motor Engineering & Manufacturing
North America, Inc.
