

SUBJECT**Recall Campaign: Side Impact Performance****MODEL**

F56 (Cooper 2-door Hardtop)

Produced from December 2013 to May 2014

SITUATION

BMW is conducting a voluntary safety Recall involving the side impact performance on certain Model Year 2014 MINI Cooper (NOT Cooper S) 2-door Hardtop vehicles. Approximately 3,680 vehicles, produced from December 2013 through May 2014, are involved.

Due to build variation, some of these vehicles may marginally exceed a NHTSA test requirement. The corrective procedure is still being determined.
