

IMPORTANT SAFETY RECALL

December 2014

This notice applies to your vehicle, **VIN:** _____.

Dear General Motors Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that certain 2012 model year Chevrolet Sonic vehicles fail to conform to Federal Motor Vehicle Safety Standard 104 – Windshield Wiping and Washing Systems. As a result, GM is conducting a recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in safety recall 12176.
- Schedule an appointment with your Chevrolet dealer.
- This service will be performed for you at **no charge**.

General Motors recently discovered a data system issue which may have caused some current owners of vehicles -- that were originally purchased by fleet buyers in the U.S. and Canada -- to not receive certain recall communications from GM. This issue may have prevented prior letters concerning this recall from reaching you, which is why you are receiving this letter. We have corrected our data system and apologize for any delay in providing this letter to you.

In cooperation with the National Highway Traffic Safety Administration (NHTSA) we recommend that you check your vehicle identification number periodically at the GM recall website (<https://recalls.gm.com>) or at NHTSA's website (<https://vinrcl.safercar.gov/vin/>), where you can find the most up-to-date recall information for your vehicle.

Why is your vehicle being recalled?

The windshield washer hose on your vehicle may separate from the washer fluid reservoir, and if this occurs, washer fluid will not be available to clean the windshield. This could impede the driver's view and a crash could occur.

What will we do?

Your Chevrolet dealer will secure the windshield washer hose to prevent separation from the washer fluid reservoir. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 30 minutes.

What should you do?

You should contact your Chevrolet dealer to arrange a service appointment as soon as possible.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
