The problem is... **The driver and/or passenger airbag inflator housing in your vehicle may rupture, due to excessive internal pressure, during normal airbag deployment events. This condition is more likely to occur if your vehicle has been exposed to high levels of absolute humidity for extended periods of time. Chrysler is conducting a limited regional field action for the above vehicles originally sold or ever registered in Florida, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

What your dealer will do... **Chrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace your driver and/or passenger airbag inflator(s). The work will take up to 2 hours to complete. However, additional time may be necessary depending on service schedules.**

What you must do to ensure your safety... **Simply contact your Chrysler, Jeep, Dodge, or RAM dealer right away to schedule a service appointment. Please bring this letter with you to your dealer.**

If you need help... **If you have questions or concerns which your dealer is unable to resolve, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.**
