Please review the following information to ensure that it conforms to your records as this information is being made available to the public. **Makes/Models/Model Years:**

INDIAN/SCOUT/2015

**Mfr's Report Date:** March 6, 2015

**NHTSA Campaign Number:** 15V-142

**Components:**

SERVICE BRAKES, HYDRAULIC:FOUNDATION COMPONENTS:MASTER CYLINDER

**Potential Number of Units Affected:** 806

**Problem Description:**

Indian Motorcycle Company (Indian) is recalling certain model year 2015 Scout N15MSA00AA, N15MSA00AH, N15MSA00AR, N15MSA00AS, N15MSA00BA, N15MSA00BH, N15MSA00BS, N15MSA00CA, and N15MSA00CS motorcycles manufactured May 12, 2014, to February 13, 2015. Due to a problem with the rear brake master cylinder, the motorcycles may have a reduction in, or a complete loss of, rear brake power.

**Consequence:**

A full or partial loss of rear braking power may lengthen the distance needed to slow or stop the motorcycle, increasing the risk of a crash.

**Remedy:**

Indian will notify owners, and dealers will inspect and replace the rear brake master cylinder, as necessary, free of charge. The recall is expected to begin in March 2015. Owners may contact the Indian Motorcycle Consumer Service Department at 1-877-204-3697. Indian's number for this recall is I-15-01 A/B.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.safercar.gov](http://www.safercar.gov).

We have received Indian's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
