WHY DOES MY [YEAR] [MODEL] NEED REPAIR?

Suzuki Motor Corporation has determined that a defect which relates to motor vehicle safety exists in certain **Suzuki** [YEAR] [MODEL] vehicles. Affected vehicles may develop an electrical circuit disconnection within the front passenger sensing system sensor mat that is built into the front passenger seat bottom cushion. In a frontal impact of significant magnitude, the front air bag will deploy - even with a child in the front seat. [Air bag deployment with a child in the front passenger seat increases the risk of severe injury or death to the child.](#) Please do not install a child restraint in the front seat and have all small passengers, such as a child who has outgrown child restraints, or a small adult, sit in the rear passenger seats until this repair is complete.

VEHICLE INFORMATION

2006 Suzuki Grand Vitara
VIN XXXXXXXX

The recall repair will be provided at no cost to you.

Your authorized Suzuki Service Provider will replace the front passenger seat bottom cushion in your vehicle with one that includes an improved sensor mat. This repair will be performed at no cost to you for parts and labor. Repairs can normally be completed in less than two hours if you have made an appointment, however, additional time may be necessary depending on service schedules.
