

Equipment Safety Recall Quarterly Report Information

Report Date: October 25, 2013

Calendar Quarter (circle one): January 1 – March 31

April 1 – June 20

July 1 – September 30

October 1 – December 31

Manufacturer (name, address, phone): Fastec Industrial Corporation, a division of WESCO Distribution, Inc., 225 W. Station Square Drive, Suite 700, Pittsburgh, PA 15219

Name, address, email, and phone and fax numbers for the person(s) to whom inquiries about this report should be directed:

Bryan D. Kocher, Senior Counsel

WESCO Distribution, Inc.

225 W. Station Square Drive

Suite 700

Pittsburgh, PA 15219

412-454-2554

bkocher@wesco.com

Subject equipment (type of equipment, part/model number, and any other information necessary for identifying the equipment):

FIC deadbolt trailer door locks – model Nos. 43610, 40610, and 44610

1. NHTSA Safety Recall Campaign Number: 13E-039

Manufacturer's assigned campaign number (where applicable): _____

2. (a) The date notification to purchasers began: Fastec began notifying its direct end user customers (approximately 18,368 customers) of the recall on or about September 10, 2013. On or about September 19, 2013, Fastec and WESCO posted notice of the recall on their respective internet websites.

(b) The date notification of purchasers was completed: Fastec completed the mailing of its NHTSA-approved recall notice to its direct end-user customers on or about October 4, 2013. Fastec continues to work with its OEM RV industry customers in an ongoing effort to gather additional names of RV owners who may potentially be affected by the recall so that notice of the recall can be provided to those end-users as well.

(c) The date notification to OEM equipment manufacturers began: July 2013

(d) The date notification of OEM equipment manufacturers was completed: July 2013

3. The total number of items of equipment involved: Fastec estimates that approximately 1.1 million locksets could potentially be affected by the recall.

NOTE: The number figures given in responses to numbers 4 and 5 below are to be stated in the cumulative (e.g., in consideration of any previous quarter's information).

4. (a) Total number inspected and remedied: As of October 24, 2013, 2566 end users have contacted Fastec concerning the recall, and 2017 replacement cylinder sets have been provided to affected end users. Additionally, Fastec has inspected 166,798 locksets in its inventory and remedied any affected locksets prior to distribution and sale to others.

(b) Total number inspected, but determined NOT to require the remedy: As of October 24, 2013, 2566 end users have contacted Fastec concerning the recall, and 549 of those end-user have not required replacement cylinder sets. Additionally, Fastec has inspected 166,798 locksets in its inventory and remedied any affected locksets prior to distribution and sale to others.

5. Numbers of items of equipment determined to be unreachable for inspection due to:

Export: _____

Theft: _____

Scrapping: _____

Failure to receive a notification of the recall: _____

Other reasons (specify below): _____

Fastec had a number of RV industry OEM customers who purchased hundreds of thousands of locksets during the recall period, but who are no longer in business. For example, Fastec sold more than 565,000 locksets to Phillips Products and similarly sold more than 558,000 locksets to Amerimax RV Door. Fastec has no way to reasonably determine which, if any, of these locksets may be affected by the recall, nor can Fastec reasonably determine who the end-users of these locksets may be.

Total number of items of equipment unreachable for inspection: Unknown

6. The number of items of equipment repaired and/or returned by dealers, distributors, and other retailers prior to sale: None

This report may be e-mailed to RMD.ODI@dot.gov or facsimiled to (202) 366-7882.
