

# Safety Recall FLC

## ABS Actuator Inspection Sheet

1. Inspect the Date Code on the brake actuator and record the Date Code and specific vehicle information in the corresponding box below:

Based on the Date Code determine if the inspection of the Serial Number is necessary.

VIN	
-----	--

Mileage	
---------	--

Date Code Spec	Record Date Code	Action Required
“ <b>12R</b> ”		<b>Continue inspection and go to step 2</b>
Anything Else		<b>Actuator NOT Affected, Campaign Complete!</b>

2. If required, inspect and record brake actuator Serial Number in the correct box below based on if the Serial Number is in the range or out of the range:

Serial Number Spec	Record Serial Number	Status	Action Required
002469 to 012218		<b>Inside of Range</b>	<b>Replace Brake Actuator</b>
Serial Outside of Range		<b>Outside of Range</b>	<b>Actuator NOT Affected, Campaign Complete!</b>

3. After completing the inspection form, file it with the R.O.
