Subject: CNG Pressure Relief Device may not Vent Pressure

Dear Mr. Baik:

This letter serves to acknowledge Agility Fuel Systems's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

AGILITY FUEL SYSTEMS/CNG FUEL SYSTEM/9999

Mfr's Report Date: July 9, 2015

NHTSA Campaign Number: 15E-058

Components:

FUEL SYSTEM, OTHER

Potential Number of Units Affected: 416

Problem Description:

Agility Fuel Systems (Agility) is recalling certain compressed natural gas (CNG) fuel systems, part numbers 23914000, 25640000, 25653000, 23913000, 23910000, 23903000, 25799500, 25600000, 23710031, 23708001, 24989800, 22989600, 22989700, 22999800, 24990722, 24990601, 25789600, 25789800, 22999500, 22999700, 25799800, 25799700, 25729800, 22929500, 22922500, 25769500, 25769700, 25799500, 22969500, 22969600, 22969700, 22969800, 22999600, 24269800, 24960800, 25789700, and 25799600, manufactured August 1, 2014, to June 1, 2015. The affected systems are equipped with pressure relief devices (PRDs) that may not function as designed and vent a buildup of pressure, such as could occur if the compressed natural gas (CNG) tank was exposed to fire.

Consequence:

If the PRD does not activate in the event of a buildup of pressure, the CNG tank may explode, increasing the risk of fire and injury.

Remedy:

Agility will notify owners, and dealers will replace the defective PRD's, free of charge. The recall is expected to begin August 10, 2015. Owners may contact Agility customer service at 1-949-267-7745.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Michelle Rice who may be reached by phone at 202-366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Timian". The signature is fluid and cursive, with the first name being the most prominent.
