

**Models Affected:**

This Campaign affects 2012 through 2016 model year Winnebago Era® motorhomes.

These motorhomes were manufactured November 11, 2010 through July 20, 2015.

**Kit Includes:**

- (2) Vehicle Certification Labels
- Instructions

**Procedure:**

The affected vehicles were produced with a Vehicle Certification Label that incorrectly states the front tire inflation pressures. Incorrect labels will be replaced with correct ones.

The incorrect labels identify the front axle tire inflation pressures as 55 psi. See Photo A. The correct front axle tire inflation pressure is 61 psi. See Photo B.

NOTE: Incorrect tire pressures or tire size can lead to tire failure, possibly resulting in loss of vehicle control and injury.

Correct front axle tire inflation pressures.

Vehicle Certification Labels are located both in the driver's door jamb and inside the Owner InfoCase.

1. Cover the existing Vehicle Certification Label on the driver's door jamb with the corrected label included with this Campaign as shown in Photo C.

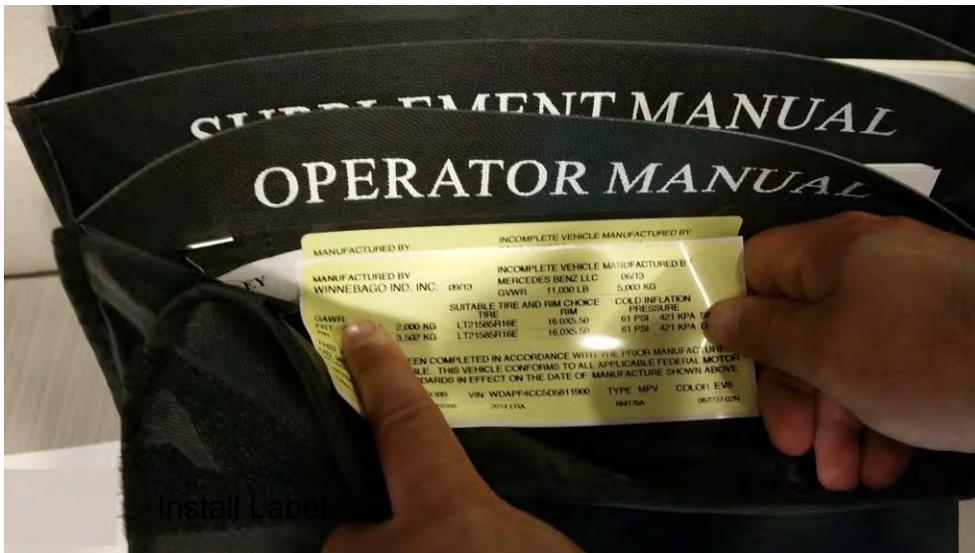

**C**

Install Label

2. Cover the existing Vehicle Certification Label inside the Owner InfoCase with the corrected label included with this Campaign as shown in Photo D.

**D**

*After the new labels are installed, please complete the enclosed preaddressed, postage-paid postcard and mail to Winnebago Industries®.*
