YOU NEED TO TAKE ACTION NOW

YOUR 2006 SUZUKI GRAND VITARA REQUIRES A SAFETY REPAIR

Suzuki Motor Corporation has determined that a defect which relates to motor vehicle safety exists in certain **Suzuki [YEAR] [MODEL]** vehicles. Affected vehicles may develop an electrical circuit disconnection within the front passenger sensing system sensor mat that is built into the front passenger seat bottom cushion. In a frontal impact of significant magnitude, the front air bag will deploy - even with a child in the front seat. Air bag deployment with a child in the front passenger seat increases the risk of severe injury or death to the child. Please do not install a child restraint in the front seat and have all small passengers, such as a child who has outgrown child restraints, or a small adult, sit in the rear passenger seats until this repair is complete.

WE NEED TO HEAR FROM YOU. THE SAFETY OF YOU AND YOUR PASSENGERS IS OF UTMOST IMPORTANCE TO SUZUKI MOTOR OF AMERICA, INC.

We will replace the passenger sensor mat of the supplemental restraint system at no charge to you.

HOW DO YOU RESOLVE THIS DANGEROUS ISSUE?
