IMPORTANT SAFETY RECALL

This notice applies to your vehicle: XXXXXXXXXXXXXXXXXXXX

Dear _____,

What is the reason for this notice?

Honda has decided that a defect relating to motor vehicle safety and emissions regulations exists in certain 2016 HR-V vehicles. There is a possibility that the emissions certification label under the hood may be missing or have incorrect information listed. This would cause the vehicle to be noncompliant with applicable emission regulations.

What should you do?

Call any authorized Honda dealer and make an appointment to have your vehicle inspected and, if necessary, repaired. The dealer will check to see if the emissions label is missing or has incorrect information listed. The inspection may be completed in a few minutes. Because the label and the vehicle's VIN are matched, if your vehicle is missing the label or the label has incorrect information, a replacement label will have to be ordered and you will have to return to the dealer a second time to have it applied. This work will be done *free of charge*.

California Owners Only:

The DMV will not renew your registration until this recall has been completed. After completing the repair procedure, your dealer will give you a Vehicle Emission Recall - Proof of Correction certificate. Please make sure the dealer completes and gives you the certificate. Keep the certificate for your records as proof that the emissions recall was completed. Submit the certificate to the DMV only if the DMV requests it.

Who to contact if you experience problems?
