

***** IMPORTANT SAFETY RECALL *****
NHTSA Recall No. 15E-073

September XX, 2015

Mr. Joe Customer
XXXX CENTRAL AVE
ALBANY NY 12205-2457

Dear Cummins OEM Customer:

We are writing to inform you that Cummins Inc. has determined that a safety-related defect exists in certain ISB6.7, ISL9, ISX12 and ISX15 engines manufactured between July 23, 2015 and August 7, 2015. Cummins has initiated a recall of the subject engines. Our records indicate that some of these engines have been shipped to you.

A copy of Cummins' initial Part 573 Defect Notification report is enclosed. This notification was submitted to the National Highway Traffic Safety Administration (NHTSA) on September 4, 2015. As more fully described in the Defect Notification, the Engine Control Module may develop an internal electrical short circuit, possibly resulting in an engine stall without warning, leading to an increased risk of a crash.

Enclosed is a list of Engine Serial Numbers for affected engines that our records indicate were shipped to your plants and are being recalled. These engines should be repaired under Cummins Campaign C1698, which is expected to be released on QuickServe Online by September 25, 2015. Please note that Federal law prohibits delivery of these engines, or vehicles equipped with these engines, under a sale or lease until this condition has been remedied.

For engines installed in vehicles that have left your control, we encourage you to make a safety defect determination in accordance with 49 USC 30118 *et seq.* and, as appropriate, to submit a Defect Notification to NHTSA in accordance with 49 CFR Part 573. Cummins will conduct the recall, including notifying owners pursuant to 49 C.F.R. Part 577, performing the remedy, and submitting quarterly status reports to NHTSA.

Cummins is requesting that you provide the associated VIN's and customer contact information to facilitate owner notification. Please work with your Cummins account team leader to ensure that the requested information is provided to Cummins no later than Oct 1, 2015.

Cummins apologizes for this inconvenience, but we are initiating this action in the interest of our customers' safety and satisfaction with our products. Thank you for your assistance.

Please confirm receipt of this communication.

Sincerely,

Cummins Inc.
