

IMPORTANT SAFETY RECALL

This notice applies to vehicle: <<VIN>>

Date: September 17, 2015

Dear Dealer:

This Notice is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and the Canadian Motor Vehicle Safety Act.

Crossroads has decided that certain CrossRoads RV travel trailers have kitchen ranges that were not installed in accordance with the manufacturer's installation instructions. The instructions require that the range be installed so that it is completely separated or sealed from other air moving/air consuming appliances or other sources of air movement. During construction of units subject to recall, a panel that protects the range from possible air infiltration was not installed. This gap may allow air to move to and from the range area potentially creating a draft that can affect the safe operation of the range.

The remedy is to install a divider wall panel to separate the range from the body of the trailer. Pictures and detailed instructions are included with this notification.

Please Use the Following Operation Code # in your Pre Authorization Request to Complete this Update:

Operation Code #.

If you have questions concerning this recall, please contact the **Crossroads RV Warranty/Service Department** by mail at Crossroads RV, P.O. BOX 40, Topeka, IN 46571, by email at 'service@crossroadsrv.com', or by phone at 855-226-7496.

We apologize for this inconvenience; however, we have taken this action in the interest of customer safety and continued satisfaction with our products.

Sincerely,

Alicia Dunafin
Warranty Manager
