**Subject:** NHTSA Recall #15V-588

**VINs Subject to Recall:** 52LBE1 [REDACTED] 52LBE1 [REDACTED]

Dear Dealer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

**Defect Involved:** Stealth Enterprises, LLC ("Stealth") has decided, based on information provided by Lippert Components, Inc. ("Lippert"), that a defect which relates to motor vehicle safety exists in certain cargo trailers manufactured by Stealth. Certain 12" and 10" brake hubs manufactured by TRP International, Inc., identified as Tru Ryde, which were incorporated into axles manufactured by Lippert and sold to Stealth, may contain a defective wheel stud. Specifically, Lippert has determined that the studs that were used to attach the wheels to the axle hubs may break, which could cause the wheel to detach from the axle, increasing the risk of a crash.

**Remedy of Defect:** The defective axle hubs will be replaced with new axle hubs that are provided by Lippert at no charge to the dealer or the registered owner. Please contact Lippert or Stealth to obtain the required axle replacement.

**Trailers Involved:** Certain Qualitec Gooseneck and Yukon, and Stealth Super-Lite, Predator, Intruder, Car Hauler Express, Gooseneck, Liberty, Liberty Limited Edition, Phantom I, Prowler, Titan, Titan SE, Viper, and Coldshore 2016 model year cargo trailers manufactured by Stealth.

**Dealer Responsibility:** Federal law requires that all affected units in your inventory be repaired prior to delivery to a customer. If you have sold a unit recently for which you have received a stock recall notice, please contact the owner immediately to advise of the recall. You may do this by sending a copy of the retail owner recall notice referenced below. Recall campaigns should receive the highest priority in your shop because of the safety factor involved and work must be scheduled promptly regardless of where the trailer was purchased.
