*John Turley*

To aid in the comprehension of the overall status of Honda's passenger frontal airbag inflator recalls, Honda is moving all FIXED and UNFIXED vehicles currently involved in regional campaigns (safety improvement campaign 14V-353 and recall 14V-700) into 16V-344. This will effectively terminate and zero out the population for 14V-353 and 14V-700.

*The numbers below show the approximate populations reported to NHTSA at time of defect notification.*

573.6(c)(3)

**Total number of potentially affected vehicles:** see below for population updates.

<u>NHTSA ID</u>	<u>Previous Population</u>	<u>New/Current Population</u>
14V-353	133,207	0
14V-700	223,602	0
<b>16V-344</b>	<b>NA</b>	<b>1,786,115</b>
