Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Mfr's Report Date: October 21, 2016

NHTSA Campaign Number: 16V-774

Components:

EQUIPMENT:RECREATIONAL VEHICLE:LPG SYSTEMS

Potential Number of Units Affected: 156

Problem Description:

Forest River, Inc. (Forest River) is recalling certain model year 2017 Dynamax Isata motorhomes, models ISC24FWM, ISC24RWM, ISC35DBD and ISC36DSD, manufactured May 19, 2016, to October 19, 2016. The affected vehicles may be missing a securing cable tie on the rubber grommet for the copper liquid propane (L.P.) gas line, allowing liquid propane to enter the cabin.

Consequence:

If the rubber grommet is not properly sealed and secured, there is an increased risk of propane leak and a fire.

Remedy:

Forest River will notify owners, and dealers will inspect the grommet and install a cable tie, as necessary, free of charge. The recall is expected to begin December 19, 2016. Owners may contact Forest River customer service at 1-574-262-3474 extension 203. Forest River's number for this recall is 55-10162016-0257.

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
