Subject: RE: Request for extension, PE13-006 IR
Date: Thursday, August 01, 2013 12:17:32 PM

Mr. Stanley,

The Office of Defects Investigation (ODI) has received your request for an extension to the required response date for the Information Request (IR) letter mailed to you on 06/27/2013 and related to investigation PE13-006. The information requested in the IR is due by the specified date in order to keep the subject investigation on schedule and to minimize any risk the alleged defect may pose to the public.

With this in mind, ODI does however appreciate the effort that goes into responding to an IR letter and your requested extension to the response date for the subject IR letter is granted. The new due date is 08/23/2013. Please submit those portions of the request that can be answered by the original due date in a partial response.

Thank You,
Bruce York

Subject: Request for extension, PE13-006 IR

DTNA is requesting a extension to the due date for its response to the IR for PE13-006. The current due date for DTNA's response is August 9th. DTNA requests that the date for responding to any parts of this IR be extended to August 23rd.

We are in the process of compiling the facts of this case with the expectation of presenting the information to our advisory board on August 7th. Based on this board's recommendation, we will need the additional time to either seek upper management's approval for field action, or complete our

response to the IR with justification for not taking field action.

We appreciate your consideration of this request.
